  <!-- Macam - macam tag Typografi -->
  <h1>LINE WITHOUT A HOOK</h1>
  <!-- Tag Paragraph -->
  <p> I don't really give a damn about the way you touch me <br />
    When we're alone<br />
    You can hold my hand<br />
    If no one's home<br />
    <span> you like it when I'm away?</span> <br /> </p>

  <p> I went and hurt my body, baby<br />
    <b> you love me the same. </b> <br />
    I can feel all my bones coming back<br />
    And I'm craving motion <br /> </p>

  <p><i> never really learns how to live by herself</i><br />
    It's a curse
    And it's growing.
    You're a pond and I'm an ocean<br />
    Oh, all my emotions<br />
    Feel like explosions when you are around<br />
    And I've found a way to kill the sounds, oh. <br /> </p>

  <p><b> oh baby, I am a wreck when I'm without you</b><br />
    <span>need you here to stay</span> <br />
    I broke all my bones that day I found you<br />
    Crying at the lake.<br />
  </p>
</body>
</html>

Output

Output of a web browser showing a document titled "Muhamad Agus Setiawan" with ID "212310004". The document discusses the physical properties of Oxygen (Oksigen) and includes a table of these properties.

Oksigen mempunyai beberapa SIFAT FISIKA, diantaranya yang terdapat dalam table berikut

Sifat Fisika	Oksigen
Massa atom <i>relative</i>	15,994
Nomor Atom	8
Konfigurasi <i>electron</i>	2S ² p ⁴
Jari-jari atom (nm)	0,074
Jari-jari X ₂ (nm)	0.140
Keelektronegatifan	3,5
Energi ionisasi I (kJ/mol)	1316
Energi ionisasi II (kJ/mol)	3396
Kerapatan (g/cm ³)	1.27(padatan)
Titik Leleh (°C)	183
Titik Beku (°C)	-219
Potensial elektroda (V)	+0.401
$X_2(g) + 2e^+_{(aq)} \rightarrow 2X^+_{(aq)}$	-

The 10 Most Popular Programming Languages to Learn in 2023

There's no question that software programming is a hot career right now. The U.S. Bureau of Labor Statistics projects 21 percent growth for programming jobs from 2018 to 2028, which is more than four times the average
 for all occupations. What's more, the median annual pay for a software programmer is about \$106,000, which nearly three times the median pay for all U.S. workers.

Not all programming jobs are the same, however. Different roles, companies, and types of software require knowing and understanding different programming languages—and it's often beneficial to know multiple languages. Trying to break into the field of software programming can be a daunting experience, especially for professionals with no prior programming experience

The Master of Science in Computer Science Align program at Northeastern University is specifically designed for students who want to transition into computer science from another field of study.

“Our aim is to transport students from a variety of different backgrounds and have them come out as software engineers,” says Ian Gorton, PhD and director of the graduate computer science programs at Northeastern University–Seattle. *“We focus on math, programming, and* *a variety of computer science and engineering concepts.”*

`<dd style="text-align:justify; text-indent:0.10in;">Whether you're new to programming or looking to brush up on your skills, it helps to know</dd>`

    <ul>
        <li><b>Web-based</b> startups are more likely to be
programming in <b>Python</b> and <b>JavaScript.</b></li>
        <li>Larger companies tend to develop their internal software
applications using <b> C# </b>or Java
            and their <b> Web applications using PHP</b></li>
        <li> Programs for data <i> analytics typically</i> use the
<b> R</b> and <b> MATLAB</b> programming
languages.</li>
        <li><u><i>Embedded devices</i></u>such as those in the
automotive and healthcare industries, run
            software written in <b> C, C++, or Rust.</b></li>
        <li>Applications that run on the cloud are increasingly
written in <b>Go or Scala.</b> </li>
        <li><b> Mobile applications</b>are increasingly written in
Swift or Kotlin.</li>
    </ul>

</body>
</html>

```

Output

1. Python
Average annual salary: \$120.000

2. JavaScript
Average annual salary: \$118.000

3. Java
Average annual salary: \$104.000

4. C#
Average annual salary: \$97.000

5. C
Average annual salary: \$97.000

6. C++
Average annual salary: \$97.000

7. GO
Average annual salary: \$93.000

8. R
Average annual salary: \$93.000

9. Swift
Average annual salary: \$93.000

10. PHP
Average annual salary: \$81.000

7 Other Programming Languages to Consider

- Web-based startups are more likely to be programming in Python and JavaScript.
- Larger companies tend to develop their internal software applications using C# or Java and their Web applications using PHP
- Programs for data *analytics* typically use the R and MATLAB programming languages.
- *Embedded devices* such as those in the automotive and healthcare industries, run software written in C, C++, or Rust.
- Applications that run on the cloud are increasingly written in Go or Scala.
- Mobile applications are increasingly written in Swift or Kotlin.
